

New Summary Report - 13 April 2015

1. How many IDP interns do you currently supervise?

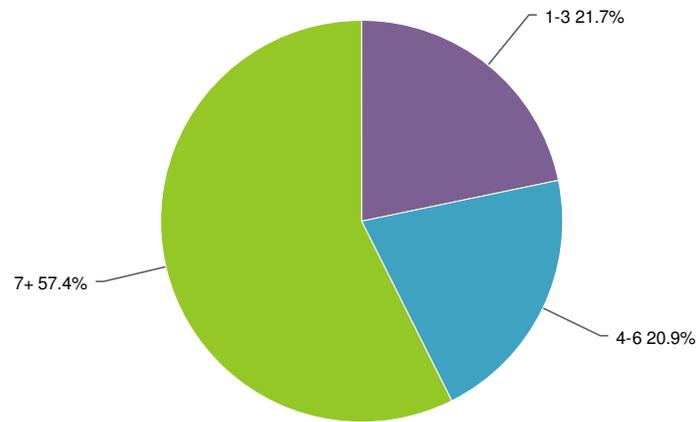

0	14.8%		17
1	31.3%		36
2	22.6%		26
3+	31.3%		36
Total			115

Statistics

Sum	196.0
Average	1.7
StdDev	1.1
Max	3.0

2. How many years have you been involved in supervising IDP interns?

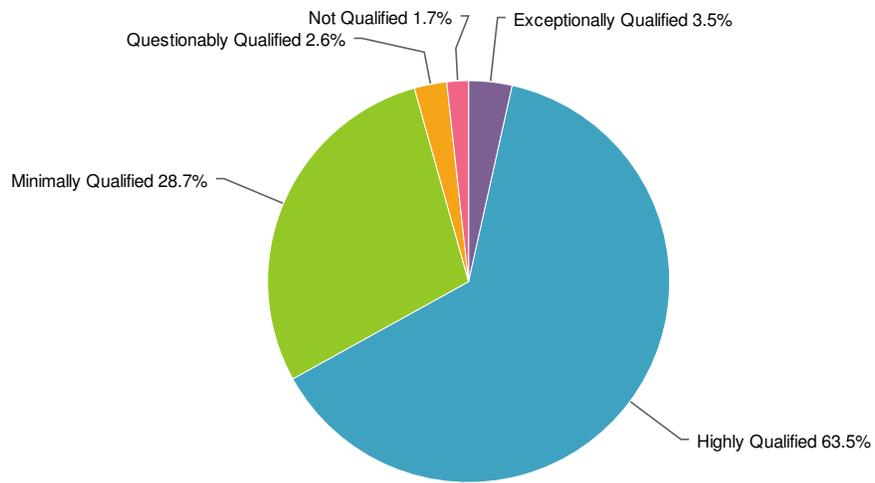

1-3	21.7%		25
4-6	20.9%		24
7+	57.4%		66
Total			115

Statistics

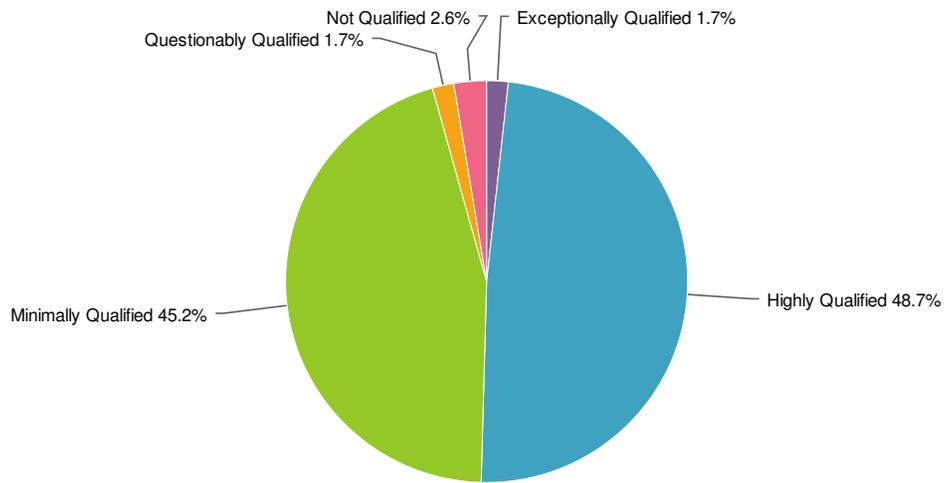

Sum	583.0
Average	5.1
StdDev	2.4
Max	7.0

3. Based on your experience supervising IDP interns, please rate their licensure qualification at completion of their internship. Assume they have also completed their exams.

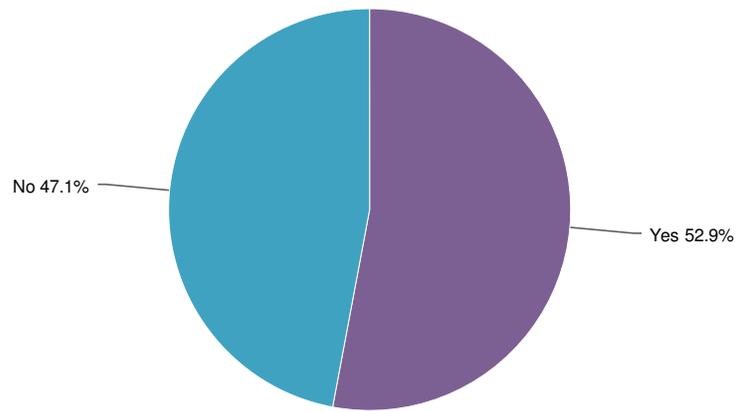

Exceptionally Qualified	3.5%		4
Highly Qualified	63.5%		73
Minimally Qualified	28.7%		33
Questionably Qualified	2.6%		3
Not Qualified	1.7%		2
Total			115

4. Please rate the licensure qualification of newly licensed architects you have interviewed or hired who did not directly intern with you.

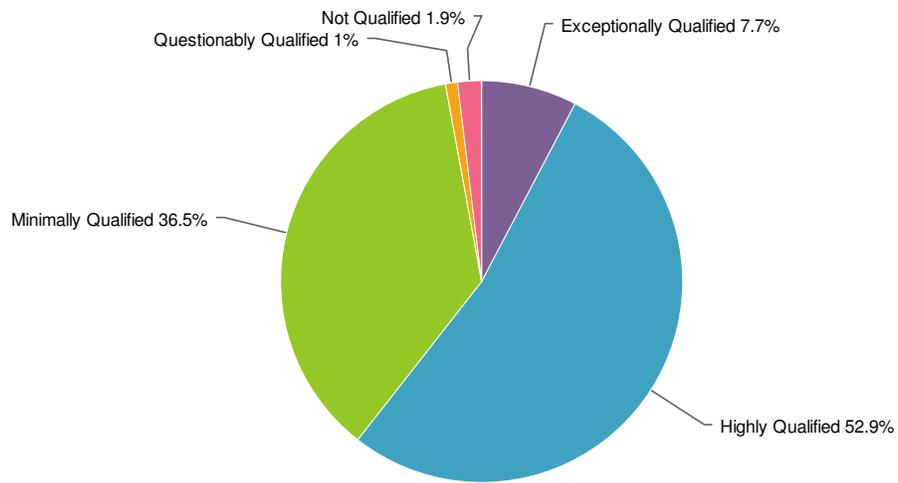

Exceptionally Qualified	1.7%		2
Highly Qualified	48.7%		56
Minimally Qualified	45.2%		52
Questionably Qualified	1.7%		2
Not Qualified	2.6%		3
Total			115

5. Have you supervised an intern since NCARB updated the core minimum hour experience categories for IDP 2.0 in April 2012?

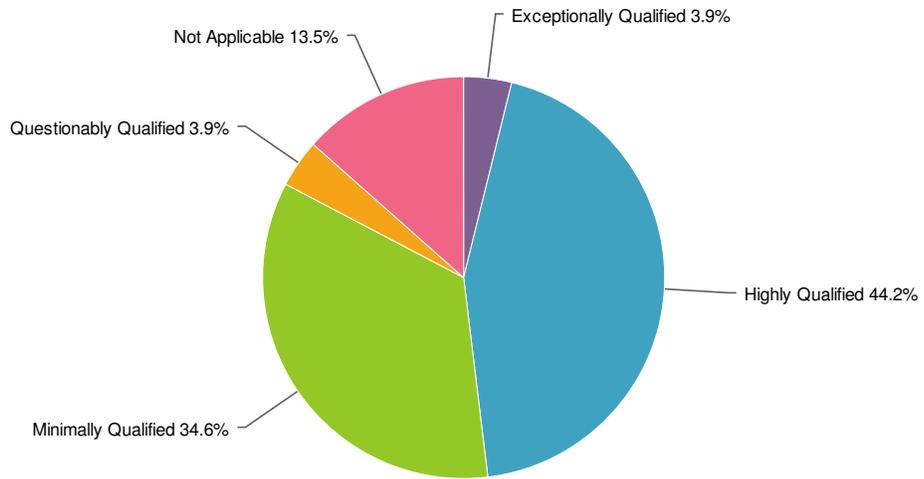

Yes	52.9%		9
No	47.1%		8
Total			17

6. Please rate the licensure qualification of IDP interns' who have completed the IDP internship since NCARB's update of experience categories in April 2012.

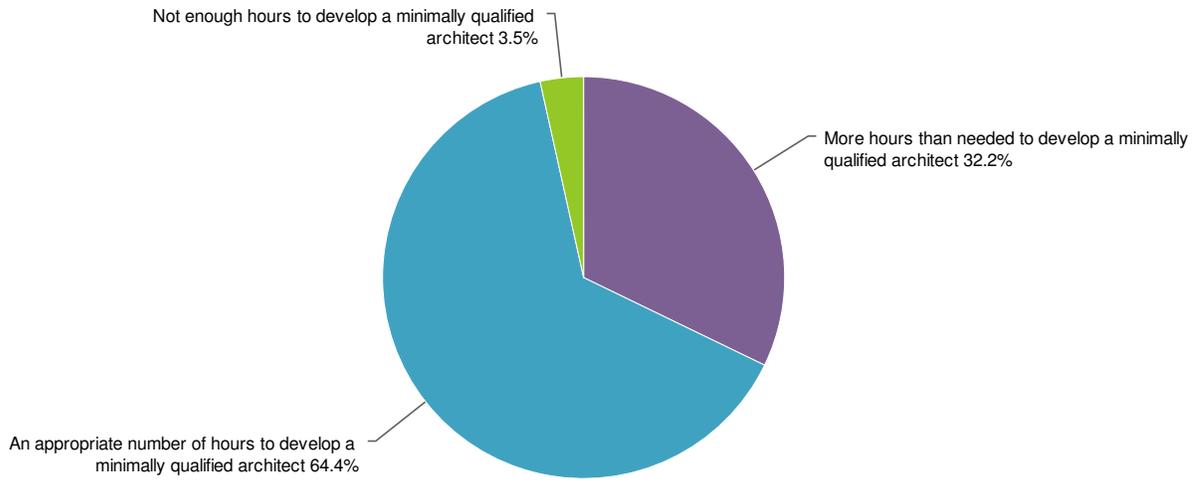

Exceptionally Qualified	7.7%		8
Highly Qualified	52.9%		55
Minimally Qualified	36.5%		38
Questionably Qualified	1.0%		1
Not Qualified	1.9%		2
Total			104

7. Please rate the licensure qualification of newly licensed architects you have hired or interviewed who have completed the IDP internship since NCARB's update of experience categories in April 2012.

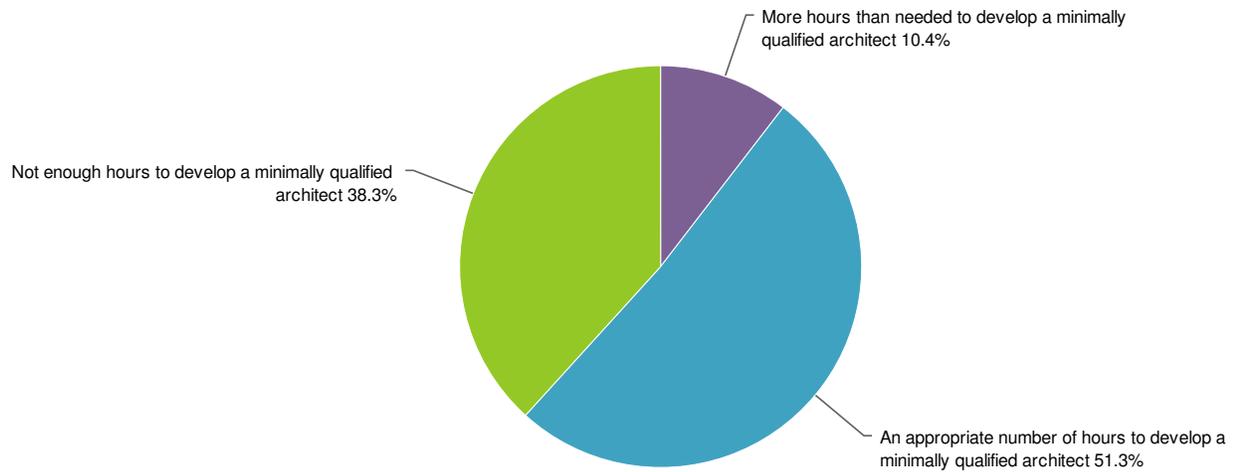

Exceptionally Qualified	3.9%		4
Highly Qualified	44.2%		46
Minimally Qualified	34.6%		36
Questionably Qualified	3.9%		4
Not Applicable	13.5%		14
Total			104

8. Based on your experience supervising IDP interns, and hiring or interviewing newly licensed architects do you believe the existing IDP hours of 3,740 core hours plus 1,860 elective hours are:

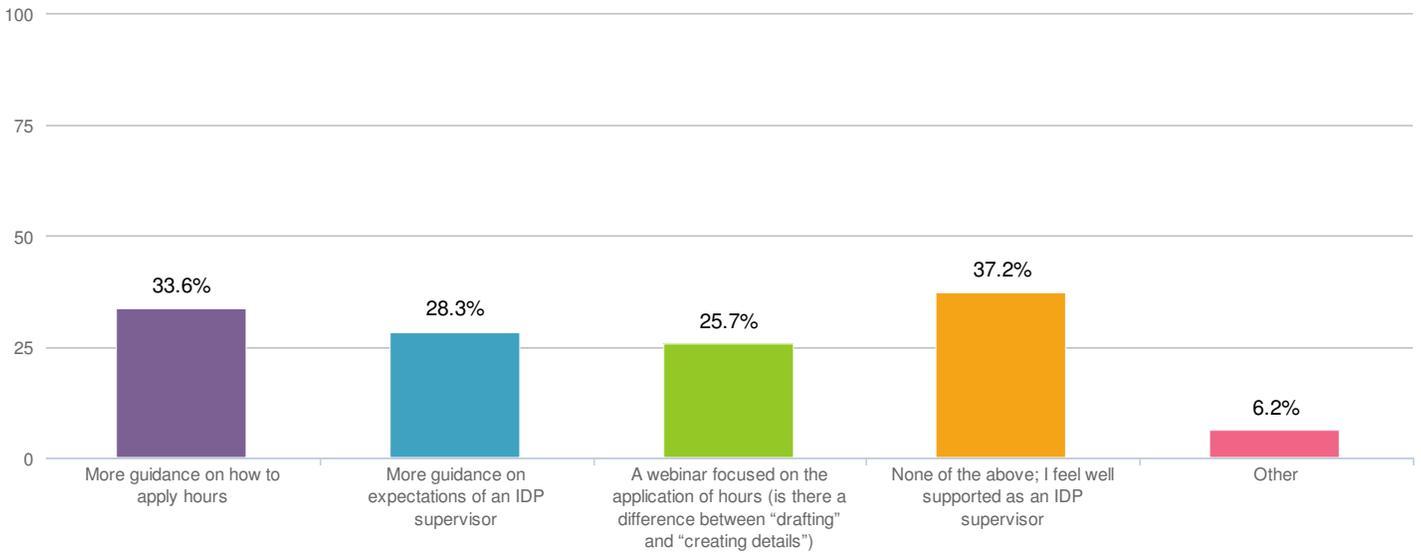

More hours than needed to develop a minimally qualified architect	32.2%		37
An appropriate number of hours to develop a minimally qualified architect	64.4%		74
Not enough hours to develop a minimally qualified architect	3.5%		4
		Total	115

9. Based on your experience supervising IDP interns, and hiring or interviewing newly licensed architects do you believe the proposed IDP hours of 3,740 core hours are:

More hours than needed to develop a minimally qualified architect	10.4%		12
An appropriate number of hours to develop a minimally qualified architect	51.3%		59
Not enough hours to develop a minimally qualified architect	38.3%		44
		Total	115

10. As an IDP intern supervisor, which of the following would be most useful for assisting interns with becoming at least minimally qualified architect licensure candidates? Check all that apply.

Response	Percentage	Count
More guidance on how to apply hours	33.6%	38
More guidance on expectations of an IDP supervisor	28.3%	32
A webinar focused on the application of hours (is there a difference between "drafting" and "creating details")	25.7%	29
None of the above; I feel well supported as an IDP supervisor	37.2%	42
Other	6.2%	7
Total		113

11. Please provide any comments you would like to make on this topic.

Count	Response
1	A good architect is not bound by arbitrary licensing regulations that are one-size fits all.
1	I do not supervise interns currently so question 4 does not apply
1	I'm fine with the survey.
1	Question #4 did no apply to me.
1	Thanks for continuing to insure Architects are minimally qualified to practice.
1	no comment
1	I think recommending elective subject exposure (and possibly tracking informally) as a means to becoming a more well-rounded architect, rather than requiring specific hours of exposure to elective subjects would be sufficient.
1	Becoming a truly competent architect involves more than filling in the blanks of doing this task or that task. It requires hands-on experience in a supportive environment where skills can be honed and where supervision is directly applied to each task. I frankly doubt this happens in most work environments.
