Dear Licensee:

Update on proposed legislation to eliminate licensing programs

In February, you received a letter from me about proposed legislation that would have eliminated the licensing requirements for your profession.

After careful consideration, the legislature did not pass the legislation (SB 6037), making the determination that the following licensing programs are still needed:

Auctioneers	Employment Agencies
Camp Resorts	Sellers of Travel
Commercial Telephone Solicitors	Whitewater River Outfitters
Court Reporters	

What does this mean to you?

You must continue to renew your license. No changes to the programs or licensing requirements were made. Therefore, you need to continue to renew your license on time.

Thank you for being patient with us through the legislative process. If you have any questions, please contact us at (360) 664-6643.

Sincerely,

Ralph C. Osgood
Assistant Director
