*Computer generated forms will be accepted as long as the format is identical to ours.*

### Step 1:

- A. Enter reporting period year and month and your Special Fuel Importer license number.
- B. Place an "X" in each box that applies.

**No Operations:** You must file a tax return even if you had no activity for that reporting period. If you do not file monthly, your license will be revoked.

**Late Returns:** When filing a late return, you must include the penalty and interest.

**Amended Return:** Report changes for a previous tax period with an amended tax return. To report changes for a previous filing, use a new tax return. Mark "Amended Return" in Section B. Record any payments made with the original tax return on line 9 and continue filling out the return. Attach supporting documentation of changes with your Amended Return.

**Name Change:** Provide your current business name. If you just purchased or incorporated your business, a new application for license must be completed.

**New Address:** Provide physical and mailing addresses.

**Cancel License and Effective Date:** The effective date is the actual date you stopped business operations. Tax returns must be filed through this effective date and taxes paid on remaining inventory.

- C. **Name and Address:** Type or print your business name and address.

### Step 2: Go to the 2nd page of the tax return –

Round all reported fuel to the nearest whole gallon and convert liters to gallons at the rate of 3.785 liters per gallon. Do not use negative figures on the Receipt schedule or the Disbursement schedule.

#### Receipts Schedule Non-Dyed

The Receipts Schedule (Form FT-441-846) documents all fuel received and produced.

#### Disbursement Schedule Tax Exempt Non-Dyed

The Disbursement Schedule (Form FT 441-841) records all tax exempt fuel sold and exported.

#### Dyed Special Fuel

Do not include rebranded fuel in this section. You will need both the Receipt Schedule (Form FT-441-846) and the Disbursement schedule (Form FT 441-841) to complete this section.

### Step 3: Return to the 1st page

**Line 1.** Enter your non-dyed fuel received total from the Receipts schedule on page 2 of the tax return below R5.

**Line 2.** Enter tax exempt gallons distributed. The total is on the Disbursement schedule on page 2 of the tax return below D11.

**Line 3.** Line 1 minus line 2. This your taxable gallons.

**Line 4.** The amount listed on line 3 will be multiplied by the tax. List this total on line 4.

**Line 5.** Taxes are due the 25th of the month following the reporting period. If you pay after the 25th, you owe a penalty. If the 25th lands on a weekend or state holiday you must pay on the next business day. To compute your penalty, multiply line 4 by 10% and enter this amount on line 5. See example on Line 7.

**Line 6.** Add line 4 to line 5

**Line 7.** If you are paying after the first of the month, following the due date, you owe interest. Interest is 1% compounded monthly of the total amount due (including penalty). To get your total, multiply the amount owing each month by 1%. This is your compounded interest amount.

*Example: You owe \$100 and your payment is two months late, you incur a 10% penalty*

*\$100 x 10% = \$110 (penalty plus original payment)*

*\$110 x 1% = \$111.10 (original payment, penalty, and interest) for the first month;*

*\$111.10 x 1% = \$112.21 (first month penalty and interest plus the interest for the second month) total due.*

**Line 8.** Add line 6 to line 7.

**Line 9.** If you are filing an amended return, enter all payments you have made for this reporting period.

**Line 10.** If Line 8 minus line 9 is greater than zero, this is the amount owed.

**Line 11.** If Line 8 minus line 9 is less than zero, this is the refund amount.

### **Signature required**

Sign, date, include title, and phone number of the person authorized to sign the tax return.

### **Payments**
