

## Washington Based IRP Estimated Mileage Requirements

If you did not accrue miles during the preceding year (July 1 - June 30) in a jurisdiction you are registering for, you must estimate the mileage you will accrue (we cannot accept estimates of zero miles). **Do not use this form if you are a member of the Full Reciprocity Plan (FRP). Visit IRP, inc. at [www.irponline.org](http://www.irponline.org) for more details about FRP or visit our website at [www.dol.wa.gov](http://www.dol.wa.gov).**

Use the methods below only when estimating mileage. Do not combine actual and estimated miles when determining total miles for a jurisdiction.

To estimate mileage:

- use the Washington Estimated Mileage Chart (see Method 1).
- use your own calculations (see Method 2).
- use a combination of the two methods.

### Method 1

If you don't have enough information to calculate your own estimate, use the figures from the chart below. **The amounts shown are for one vehicle. If you have multiple vehicles in your fleet, multiply the mileage for a jurisdiction by the number of vehicles in your fleet to get your estimate.**

### Method 2

If you know your proposed route of travel, provide us enough information to justify the estimated mileage for **each** jurisdiction. List details of the proposed operation, location, highway, distance to be traveled, and number of vehicles in your fleet. You must submit this information with your application to operate in additional states or Canadian provinces.
