

Washington Based IRP Estimated Mileage Requirements

If you did not accrue miles during the preceding year (July 1 - June 30) in a jurisdiction you are registering for, you must estimate the mileage you will accrue (we cannot accept estimates of zero miles). **If you accrued actual miles in three or more months during the preceding year, you must report the actual miles you accrued.** Use the methods below only when estimating mileage. Do not combine actual and estimated miles when determining total miles for a jurisdiction.

To estimate mileage, you can:

- use the Washington Estimated Mileage Chart (see Method 1).
- use your own calculations (see Method 2).
- use a combination of the two methods.

Method 1

If you don't have enough information to calculate your own estimate, use the figures from the chart below. **The amounts shown are for one vehicle. If you have multiple vehicles in your fleet, multiply the mileage for a jurisdiction by the number of vehicles in your fleet to get your estimate.**

Method 2

If you know your proposed route of travel, you must give us enough information to justify the estimated mileage for **each** jurisdiction. Provide details of the proposed operation, location, highway, distance to be traveled, and number of vehicles in your fleet. You must submit this information with your application to operate in additional states or Canadian provinces.
