18 Taxi Meter (meter used in a vehicle which is for hire)		X \$ 25	\$
Enter the Grand Total Due in Section 2 of the Master Business Application.		Grand Total Due	\$

Additional information

Scales: You are required to register the scales you use to determine the charges by the weight of the items, products, commodities or services you provide, buy, or sell. If you have questions about the capacity of the scale you are using contact your service company or Weights and Measures.

Motor Fuel Meters: You are required to register all of the motor fuel meters in the dispensers you use to sell fuel. Each dispenser cabinet may contain four or more motor fuel meters. These meters are located in the lower portion of the dispenser cabinet. Most retail fuel meters are classified as Low. Bulk delivery or wholesale meters may be classified as Intermediate or High. If you have questions about your fuel meters contact your service company or Weights and Measures.

As the owner of the device, you are responsible for registration. “Owner” is defined in WAC 16-674-010(b) as the individual or business actually using a weighing and measuring device for commercial purposes, regardless of who is the legal owner or lien holder. RCW 19.94.175 sets the fees and RCW 19.94.015 governs the registration of weighing and measuring devices.

For information about weighing and measuring devices, contact Department of Agriculture Weights and Measures at (360) 902-1854 or e-mail wts&measures@agr.wa.gov.
