

July update

Release 2 Fuel Tax, Refund, Audit, Financial Review and Collections

- Implementation of Release 2.1 of the PRFT Modernization system has been completed for early registration of our Fuel Tax accounts.
- Implementation of Release 2.2 has been completed; impacting our Unlicensed Refund customers and Fuel Tax accounts.
- Release 2.3 is underway and is scheduled for “go live” on August 15. This will impact our Audit unit by providing an infra-structure for using the new system for audit documentation and findings. It will also allow our customers to receive ACH (electronic) refunds via Taxpayer Access Point ([TAP](#)).

Reminder: Effective June 30, 2016, all Fuel Tax Supplier, Distributor, Importer, and Exporter licenses expired. Licensees must reapply for a new fuel tax license to continue operations in Washington. This does not impact the IFTA licenses. All Fuel Tax Refund customers must reapply for a new Fuel Tax Refund Permit Account to receive a refund.
