**Purpose:** Correcting the number of hours required for hazardous material training from the December 17, 2018 filing for minimum training requirements.

This amendment reduces the number of required hours for hazardous material training on a commercial driver license endorsement from 20 hours to 16 hours to reflect the number reached in agreement with stakeholders. While federal regulations specify that the hazardous materials curriculum must be taught in its entirety, the number of hours required to do so remain unspecified. In working with stakeholders, the commercial driver license program concluded that the number of hours to teach the curriculum amounted to 16 hours, or two business days.
