ESTABLISH ACCOUNT ACCESS

**Important!** Before you begin this process, you will need access codes from your account Administrator for each business task and each business/location for which you will be performing that task.

For example, if you are a dealer employee that will be doing e-permits for two locations, and will also be performing plate searches, you will need a total of three access codes – one for e-permitting for each location, and one for the contracted plate search.

Your access codes are only good for **8 hours** after they have been generated by the system.

**Establish your License eXpress account**

You will access various business tasks, such as E-permitting and various types of vehicle reporting, through SecureAccess Washington (SAW) via License eXpress, so you’ll need to create a License eXpress account. **This is a one-time process.**
