\*Instructor: Instructor training in every state requires a cosmetology (or related field) license. Most states then require either additional hour and/or work history.

\*Barber: We only have Barber information from those state who filled out this information, if Barber is not marked it does not mean this state does not have a Barber license, just that we do not have the information at this time.

\*Other: This field covers any additional license that a state might offer, for example; Natural Hairstyling, Electrology, Wax tech. etc...

\*Most all States have detailed information regarding reciprocity or endorsement on there websites

(The NIC Administrators Guide has more detailed information, please contact your states Administrator for further information.)
